EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Benjamin Hauptman on 6/19/07.

The application has been amended as follows:

Claim 32: Deleted "ND" after 'aluminum chromate'.

In the Specification, at page 15, the following paragraph is deleted:

~~Table I shows a list of industries and products which may benefit from the use of filtering systems employing the rotor shown with respect to Figures 1a through 1c.~~

This paragraph is deleted because there is no Table I in the application as originally filed.

Allowable Subject Matter

Claims 19-23,26-29,32-39 and 41-43 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior arts, Schoendorfer and Cooper, would not work if their rotors are confined to a spherical envelope.

The 35 USC 112, first paragraph, rejection is withdrawn because there is sufficient disclosure in specification, pages 7, 2nd paragraph ('cylindrical portion has an arcuate surface', and the axial side of the cylindrical portion is depicted as curved, which would make the rotor to have an approximately spherical outline), and page 8, 3rd paragraph (the two alternate configurations restricting the rotor to rotate on one axis only) to support the limitation of the rotor being confined to a spherical envelope.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Krishnan S. Menon whose telephone number is 571-272-1143. The examiner can normally be reached on 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David R. Sample can be reached on 571-272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
